Date of issue: 23.01.2017

**TURMOGREASE L 801 EP plus** is a lubricating grease based on lithium special soap with a partially synthetic mixed base oil and additives in order to optimize the general lubricating properties.

Because of the special soap complex a separation of the base oil from the thickener will be prevented.

## Special properties

- Excellent corrosion protection
- Excellent nonferrous metal protection and aging protection
- High lubricating film stability
- Ideal high and low temperature performance
- Low oil separation rate
