

Typical Properties of LHL-X100

Test Items		
Appearance		Semi-fluid
Colour		Brown
Worked penetration		460
Copper Corrosion (100°C,24h)		Pass ※
Oil Separation (100°C,24h)w.t. %		N/A
Thickener		Urea
Ambient Temperature Range		−20°C ~ +120°C
Based Oil viscosity mm ² /s	(40°C)	114
	(100°C)	12.2
Based oil viscosity index		97

※ No change in colour into green or black on copper plate is observed.
